2024 Scheduled Teaching Garden Workdays

- Workdays run from 9am to noon every other Saturday during the growing season
 - Come and leave when you need to, on workdays that fit your schedule
 - When you arrive, go to your adopted garden area to work with your team
 - Team leaders will provide an orientation to new members
- You can also work on days other than a Saturday Workday. Simply coordinate with your team leader regarding tasks to focus on
- Team leaders will contact team members before each workday to highlight tasks for the garden area for that day and confirm which team members plan on attending
- Plant Sale Workdays are also noted in the schedule, which coincide with some of the Saturday Workdays in April and May.

Saturday Workday tasks include planting, weeding, fertilizing, watering, pruning, spreading mulch, plant division, dead-heading, winterizing, diagnosing and managing insect and disease problems, putting up and taking down deer/rabbit fencing, etc.
